

Job Matching, Placements & Incentive Programs

The *Job Matching, Placement and Incentives* programs available at the Regional Employment Help Centre offer employers the opportunity to connect with and retain the right employee based on specific needs.

The Regional Employment Help Centre can assist employers with the following services:

- Create awareness of the Employer's hiring needs by featuring job postings on the website, the radio show and on the job boards located in the Resource Centres in all three offices
- Recruitment consultation & candidate pre-screening services
- Customer employment preparation
- Interviewing facilities
- On-the-job training placement incentives

Job Matching

An Employment Consultant can help bridge the gap between employer and employee by identifying the human resource requirements and matching a qualified employee. The Consultant can help to develop an "on-the-job" training plan and assist in building a successful working relationship.

Ontario Job Creation Partnerships

Organizations who have defined projects that provide a benefit to the community or local economy and can provide meaningful work experience to an unemployed job seeker may

benefit from this program. An Employment Consultant can help you determine if your specific project may qualify for this program.

Apprenticeship Coordination

Employers who participate in apprenticeship training not only ensure that they will have an employee trained to provincial industry standards but will also have an individual who understands the employer's unique workplace

conditions. There may also be financial benefits available to employers who participate in apprenticeship training.

Programs for Youth

Employers may receive financial incentives to hire youth with varying degrees of challenges to employment. Depending on the needs of the youth, they may become job ready for the workplace with minimum hours spent at job preparation workshops. Programs are offered year round.

Our Employment Consultants

At the Regional Employment Help Centre we realize that time is valuable. Brandy, Donna, and Rene, our Employment Consultants, are here to meet with employers and assist you with these programs and services.
